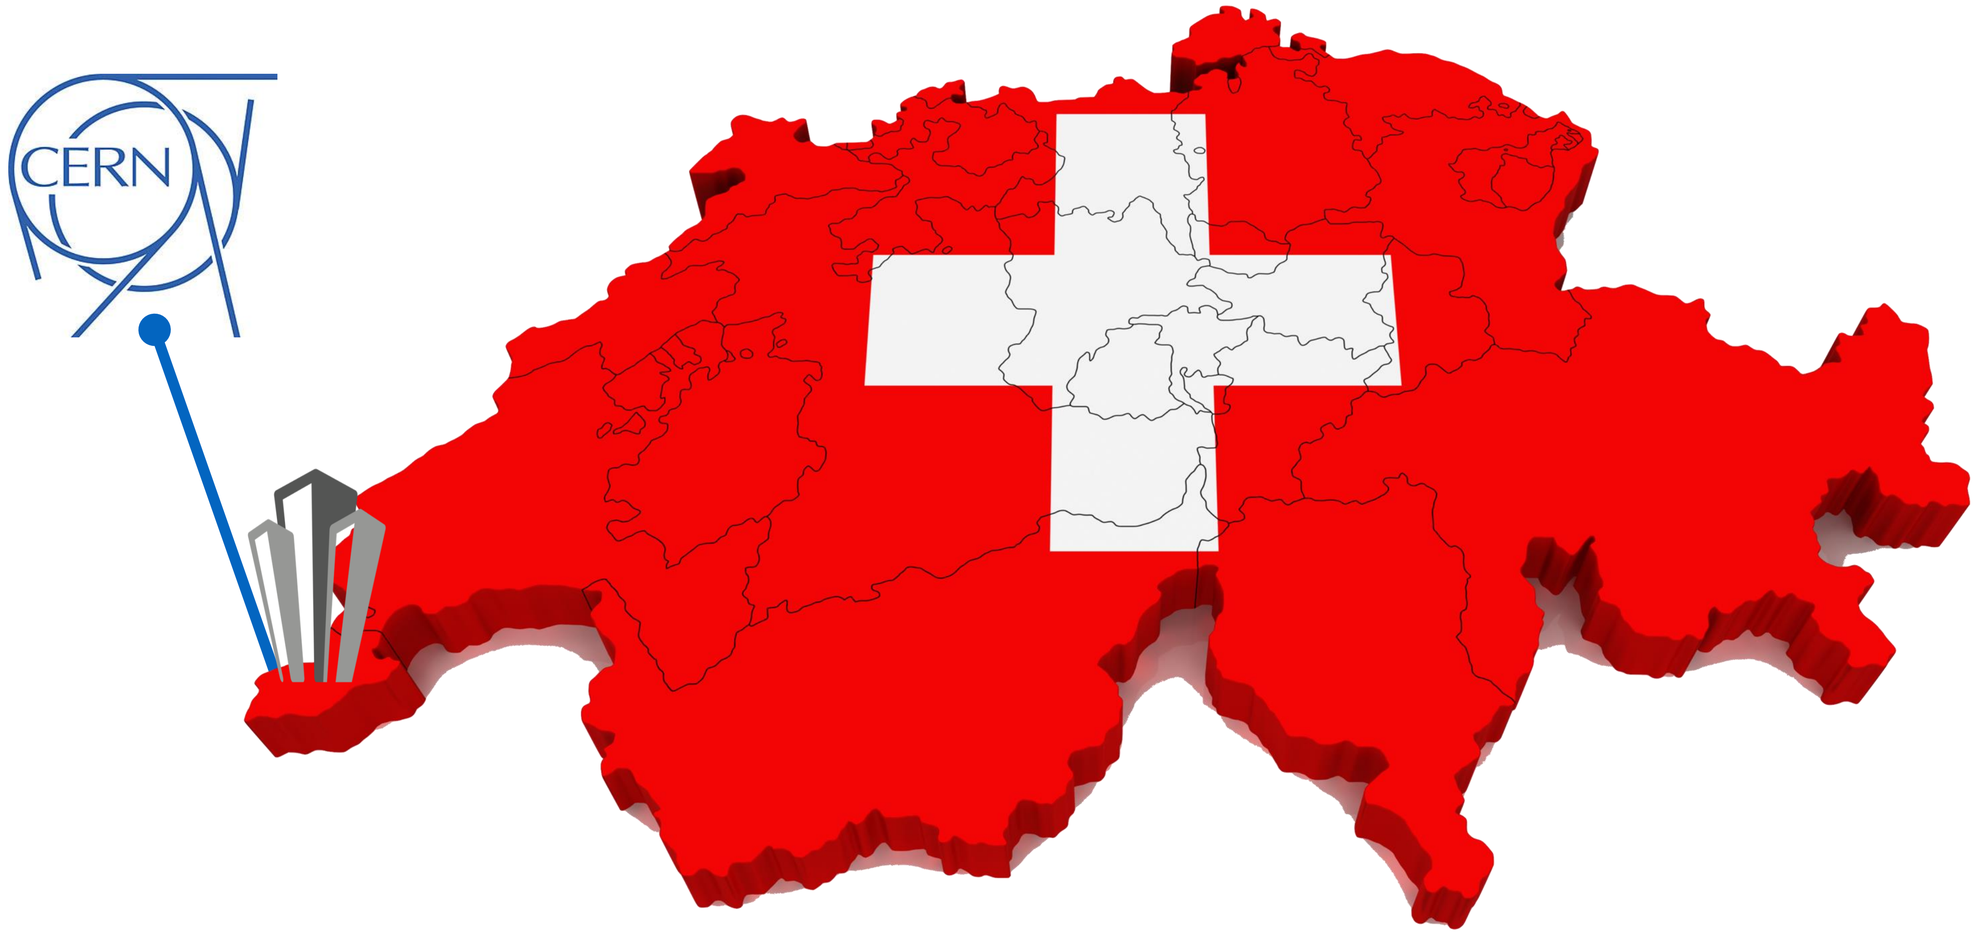
Open Software Infrastructure for near data AI

Create the Next Generation IoT eXperience for the future
European Industry Partnerships
Lighthouse to Thrive in the New Digital Age

Marc-Elian Bégin
CEO, Co-founder

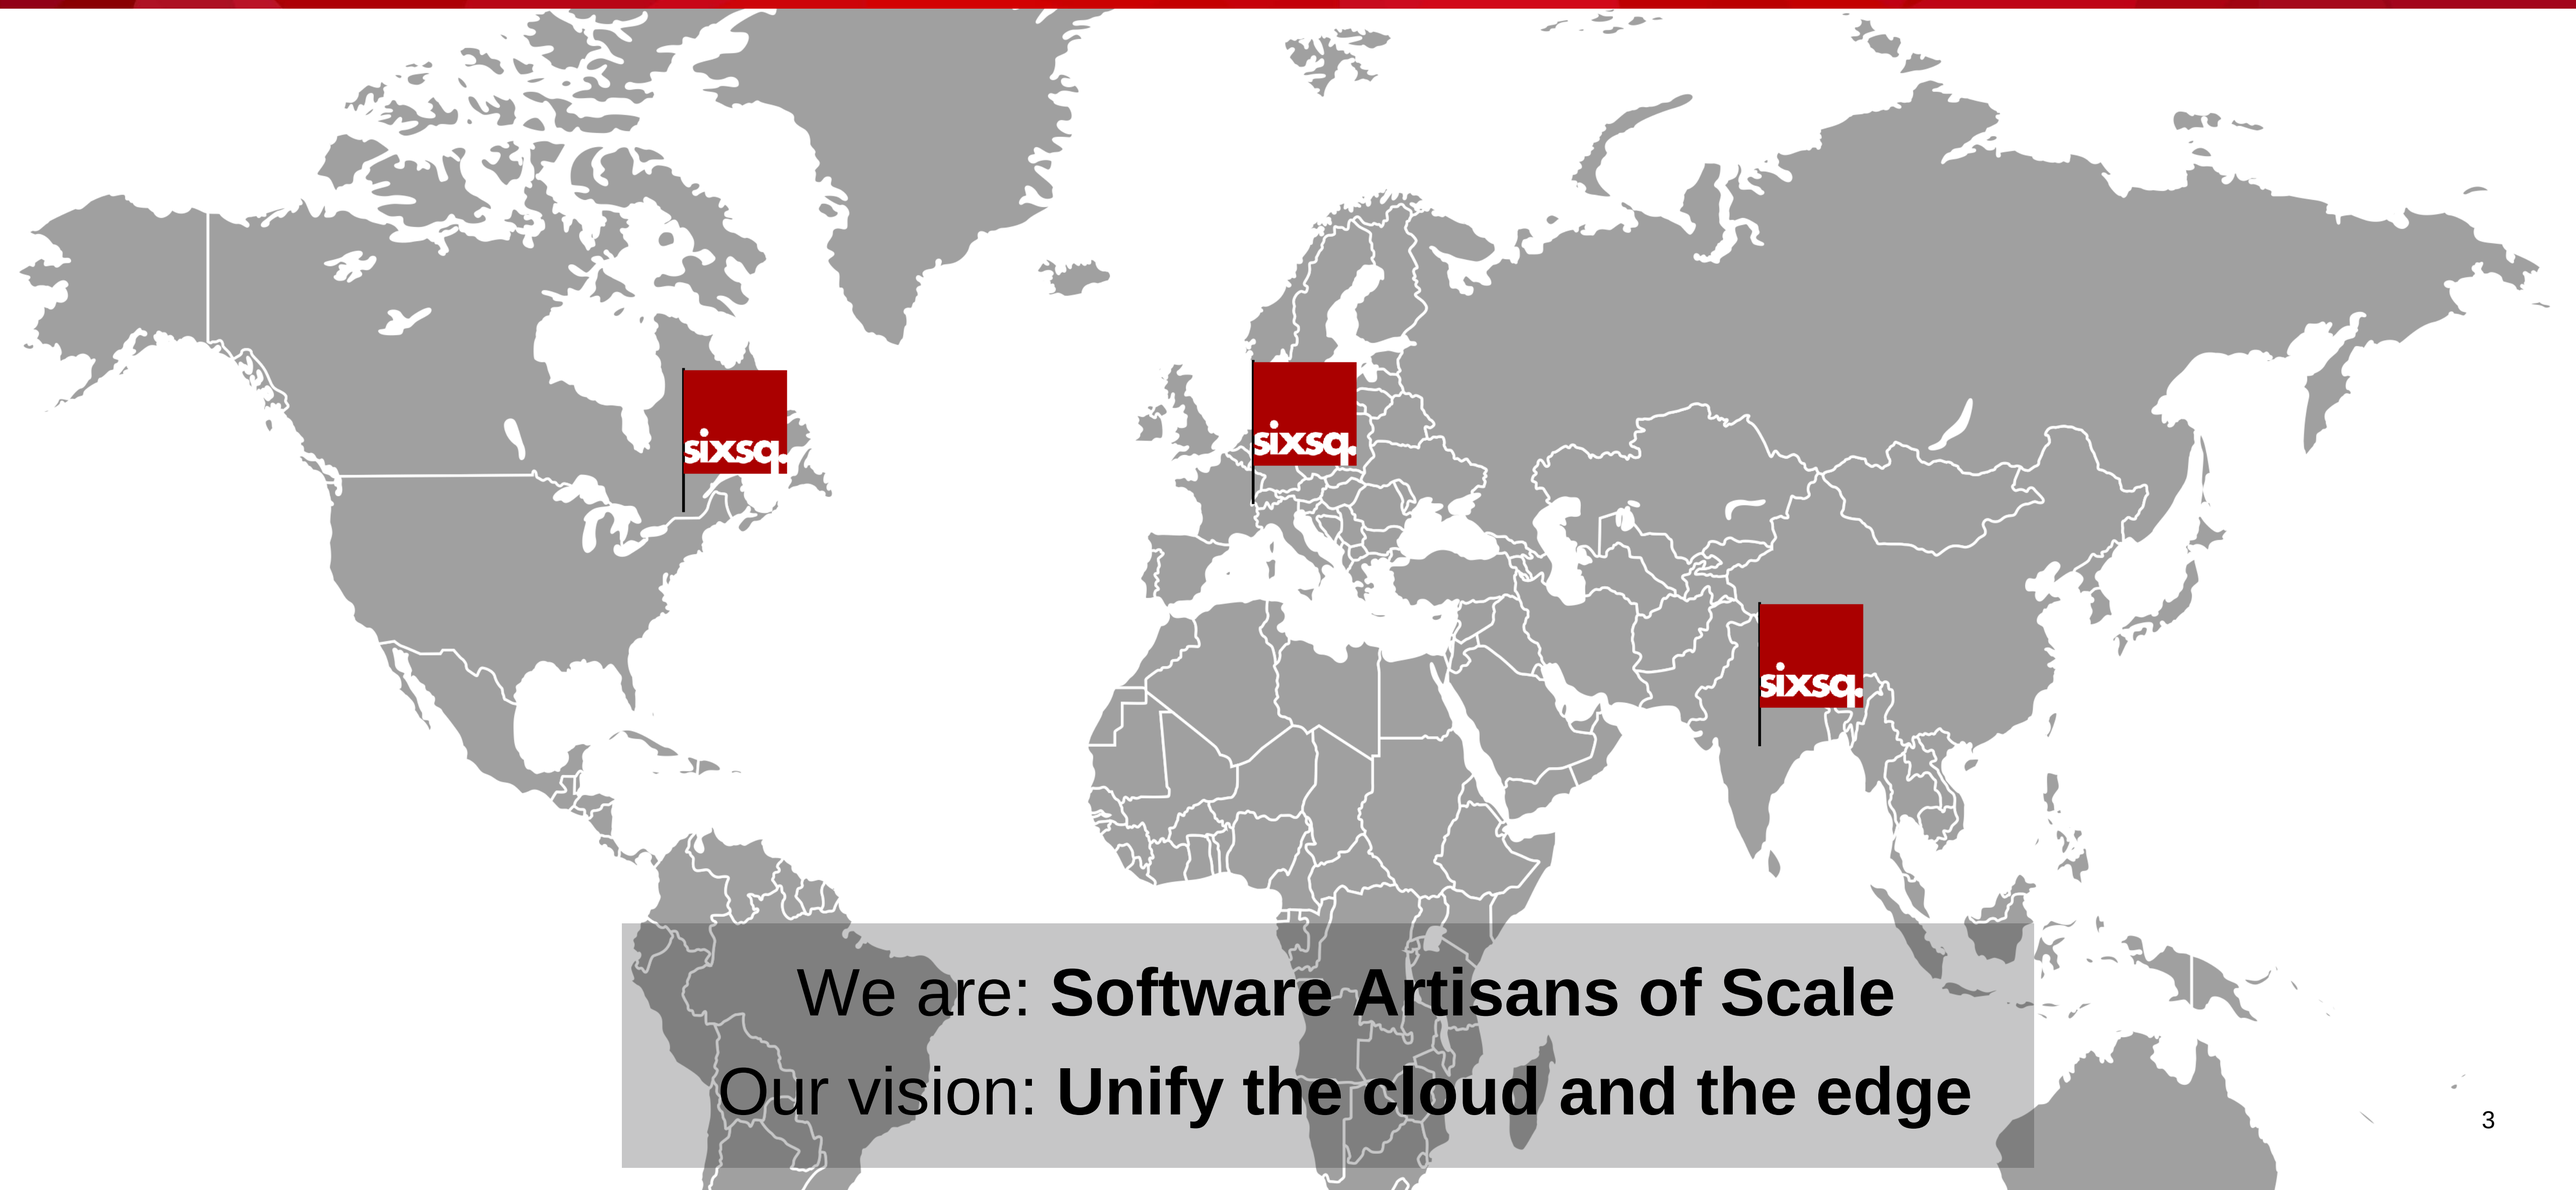
Established in Geneva



We are: **Software Artisans of Scale**

Our vision: **Unify the cloud and the edge**

With a world presence…



We are: **Software Artisans of Scale**

Our vision: **Unify the cloud and the edge**

What we do?

Nuvla

is a

secure edge-to-cloud

(and back)

management platform

that enables

near-data AI

for a connected world

NuvlaBox

is a

secure

smart

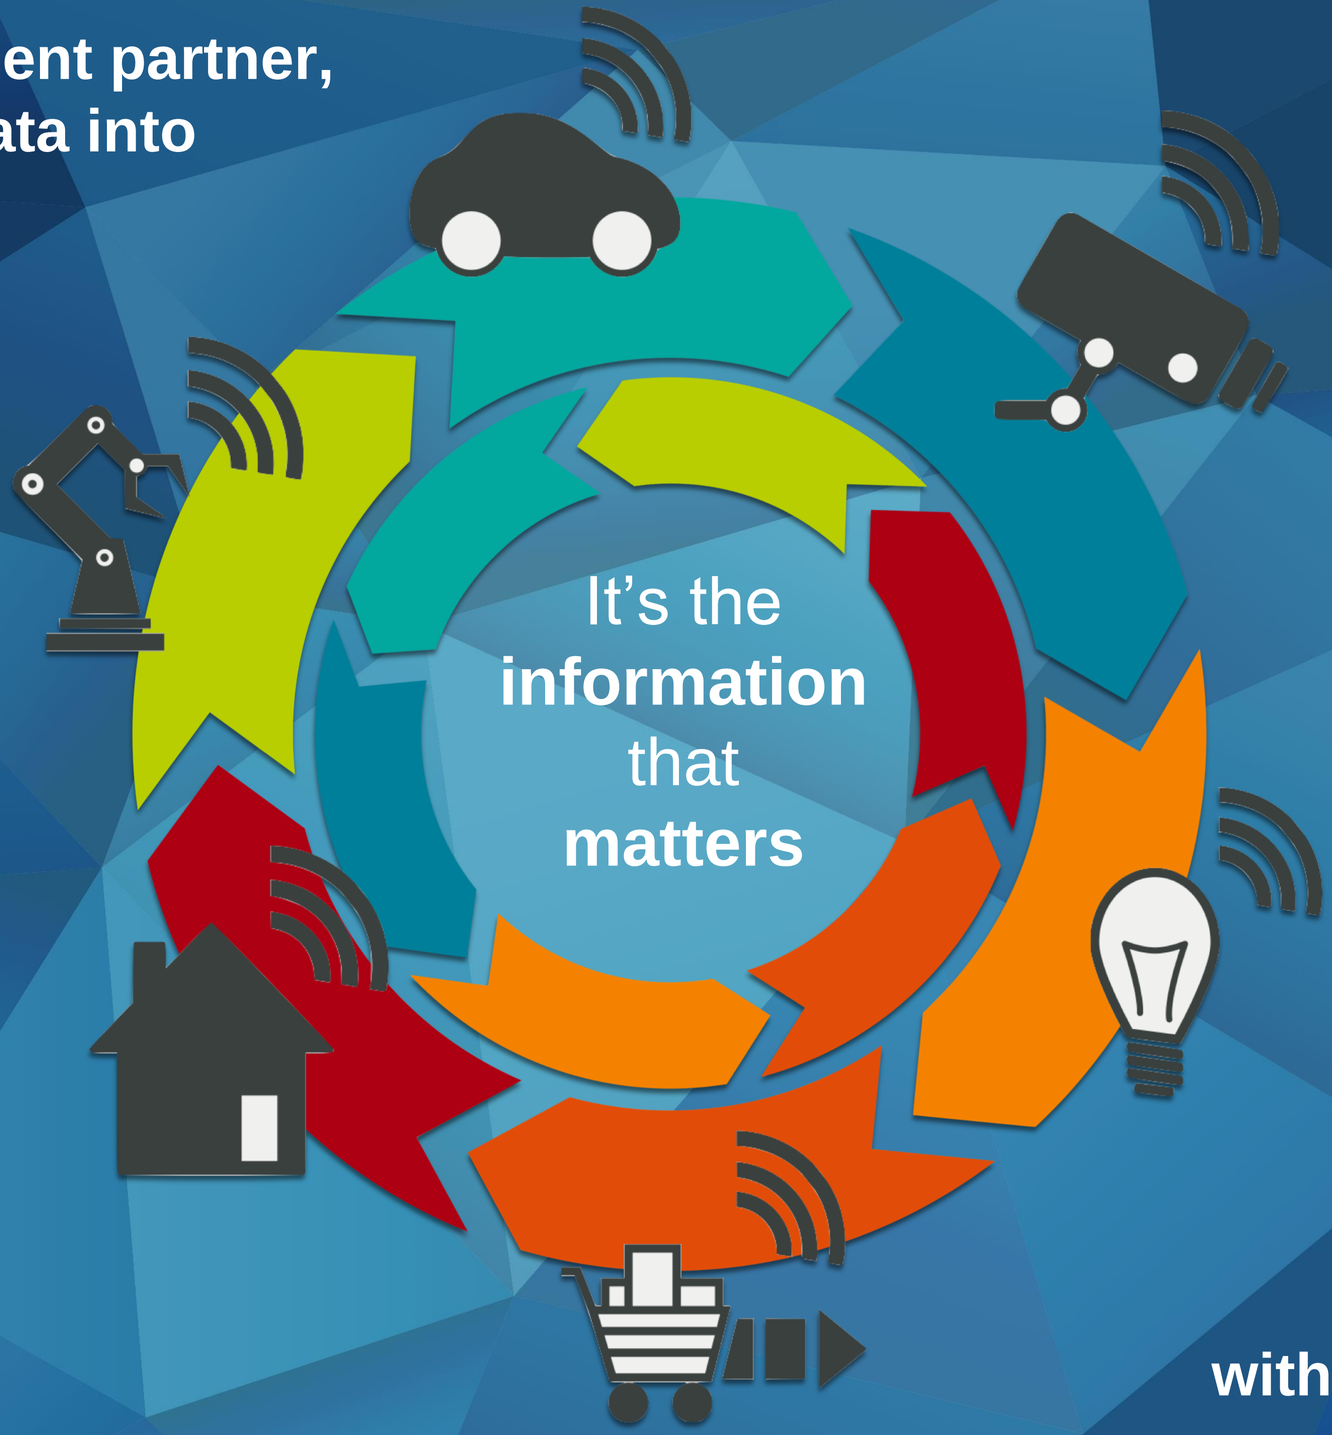
portable

solution (“in a box”) for

edge computing

Released under **Apache 2.0 Open Source** license

We are the enablement partner, transforming raw data into information



Deploy the right AI at the right place, at the right time without privacy intrusion

Real-life Applications and Services

Key H2020 projects

- **mF2C**:
  - Smart boat
  - Smart airport
  - Smart city
- **Synchronicity** (smart city):
  - Dynamic lighting
  - Traffic monitoring
- **ELASTIC**:
  - Discovery infrastructure for future autonomous transport
